

LAW ENFORCEMENT NALOXONE ADMINISTRATION

Overview: This summary report includes information from two data sources. From approximately May 1, 2015 thru January 31, 2019, data was captured through the use of a post card. The post card was completed by law enforcement officers when Naloxone was administered in the field and was sent to Snohomish County Human Services. Starting in February of 2019, data is now being captured in New World. Human Services staff continue to monitor the use of Naloxone administered by law enforcement for internal purposes and to supply data to the Opioid Multi-Agency Coordination (MAC) Workgroup.

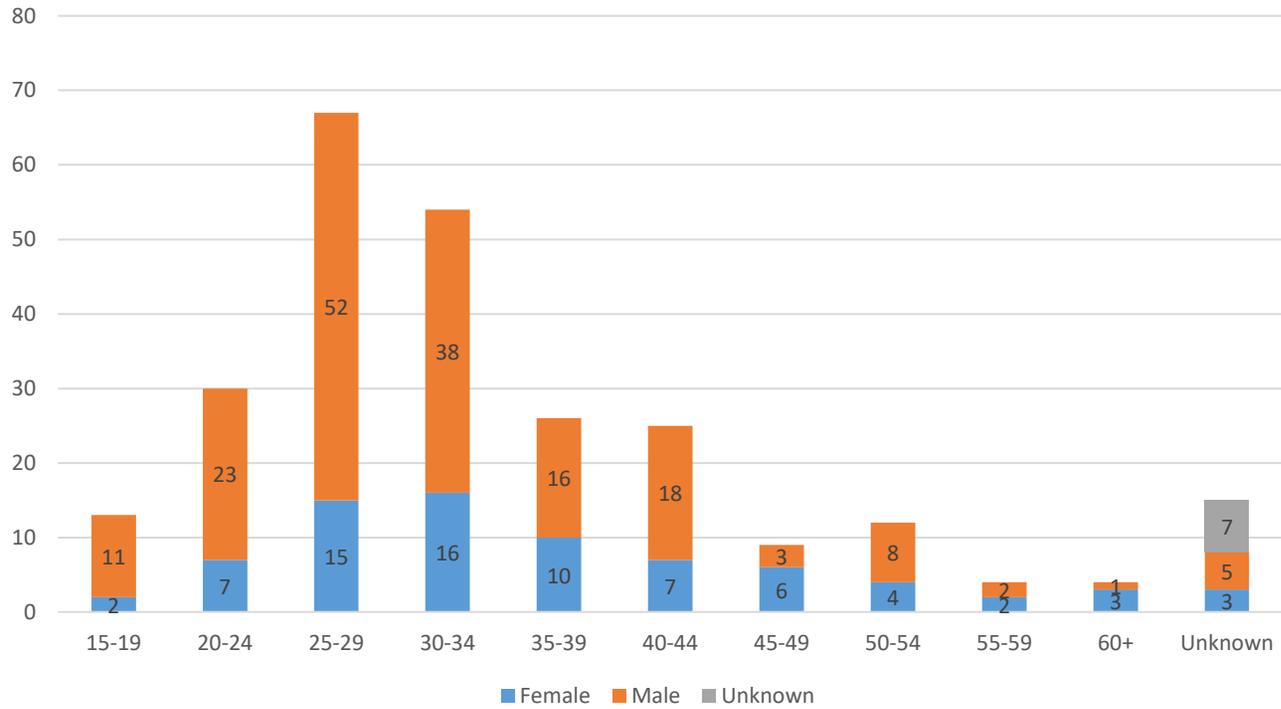

It is suspected that not every single event where Naloxone was administered by law enforcement has been captured through the two data collection methods.

Law Enforcement Naloxone Administration by Agency			
Agency	5.1.15-8.31.19		9.1.18-8.31.19
	Total	Total Average per month	Average for last 12 months
Arlington	6	0.118	0.083
Bothell PD	4	0.078	0.083
Edmonds PD	16	0.314	1.000
Everett PD	110	2.157	2.167
Lake Stevens PD	10	0.196	0.167
Lynnwood PD	25	0.490	0.833
