

Police Department Responses

Agency	Does your agency plan to continue supplying narcan to officers after December 31st?	If not, why?	If yes, is it built into your preliminary budget?	Do you plan to continue tracking data with Narcan deployments, etc.?	Interested in continuing, but would have it coordinated with other partner?	Interested in partnering on a leave behind program?	Any Other Information	Point of Contact
Arlington	Yes	n/a	No	Yes	Yes	Maybe, cost dependent	If Snohomish County Human Services discontinues funding, APD will consider continuing to supply kits to its officers through partnerships with Arlington Fire/EMS. APD would seek grant/community funding to support this program. The number of kits available to officers will be determined and limited by funding.	Chief Jonathan Ventura
Bothell	Waiting on Response							
Brier	If Snohomish County Human Services does not supply the Narcan and training to our police department then we will not have it in the patrol vehicles any longer. I do support the use of Narcan and training. We will continue to use our current supply of Narcan as needed and complete police reports on the deployments/use of Narcan.	"The Fire Department is close here in Brier"		Yes, until it runs out				Mike Catlett- Chief of Police
Darrington	Waiting on response (contract city with Sheriff's Office)							
Edmonds	Yes	N/A	No	Yes	Yes. Given the number of agencies throughout the county that issue Narcan to their officers, it makes sense to have a coordinating agency to facilitate the program	Interested, but would not be able to serve as a "distribution" resource	This is a very important program county wide and one that every effort should be made to maintain. It makes sense to have one point of contact/distribution/coordination	Jim Lawless- Assistant Chief of Police
Everett	"Would like to, but still evaluating"	"Lack of funding."	No	Yes, until it runs out	Yes	Yes	N/A	Dan Templeman- Police Chief

Lynnwood	Yes	N/A	Yes	Yes	"We are always open to discuss potential partnerships and collaborations (especially if they can provide additional funding sources for this valuable life-saving resource)."	"Our interaction with the patient immediately after the administration of Narcan in the field is very limited in scope – the patient is turned over to arriving fire/medical personnel as soon as practical. Consequently, we would defer to fire/medical first responders for participation in any such program."	N/A	Sean Doty- Commander
Marysville	Yes	N/A	No	Yes	Yes, very much so	No	No	Mark Thomas- Commander
